

# Backwards Women

The Jayhawks

When you're done crawling out your window  
And you can't seem to stay in one place

We've been thinking bout bitter days  
We've been drinking, it's miles away

I, I don't wanna love you but I'll try  
Try to stay away from you next time

I love backwards women  
In the potholes underneath the neon sun

I've been wasted, on the run  
I've been chasing troubled ones

I, I don't wanna love you but I'll try  
Try to stay away from you next time

Every street sign says stop, turn around  
I can't help myself even though it runs me down

[?] show your face [?]  
There's a weight that drags you down across the floor

I, I don't wanna love you but I'll try  
Try to stay away from you next time  
I, I don't wanna love you but I'll try  
Try to stay away from you next time
