

Caught with a Smile on My Face

The Jayhawks

Time cannot erase
Your funny little ways
And all the special joys that you gave me
When I hear your voice
Rise above the noise

Of the busy streets of the city
And I'm caught with a smile on my face
Guess it's never too late

Chasing after happy endings
The years have been unkind
I slowly lost my mind

But there's one thing that keeps me back running
Yeah I'm caught with a smile on my face
Guess it's never too late
Chasing after happy endings

Tell me whatever happened
To all the plans that we made
I played around too often
While you bravely carried on

And I'm caught with a smile on my face
Guess it's never too late
Chasing after happy endings

Yeah I'm caught with a smile on my face
Guess it's never too late
Chasing after happy endings
