

# Closer To Your Side

The Jayhawks

Please let me be the one  
To see you in the day  
To know you in the night  
I'd run to your side  
Better know that you're from  
Another side of town, long way

You, my heart I can give it to  
You, my soul  
I can make it with you  
It's all I can do, my soul

Closer to your side  
I walk with you tonight  
Closer to your side  
I walk with you tonight

Please let me be the one  
To see you in the day  
To know you in the night  
I'd run to your side  
Better know that you're from  
Another side of town, long way

You, my heart I can give it to  
You, my soul  
I can make it with you  
It's all I can do, my soul

Closer to your side  
I walk with you tonight  
Closer to your side  
I walk with you tonight

It's hard to make things better  
Go ahead and try  
Go ahead and try

Take some time along with me  
Take some time along with me  
Take some time along with me  
Take some time along with me

You, my heart I can give it to  
You, my soul  
I can make it with you  
It's all I can do, my soul

Closer to your side  
I walk with you tonight  
Closer to your side  
I walk with you tonight

Closer to your side  
I walk with you tonight
