

Lovers of the Sun

The Jayhawks

Hey girl, look at what you've done
All in ruins nothing won
Back seats and empty stalls
Collecting numbers never called

Just watch her run
She's a lover of the sun
Just watch her run
She's a lover of the sun

Mainline to robert frost
She'll find a way of getting lost
White noise, hit an all-time low
There's more to life than letting go

Just watch her run
She's a lover of the sun
Just watch her run
She's a lover of the sun

Over rolling hills along the highway
Far behind it almost fades away
Wind to fall a face a different country
Comes a time one might just find to stay

Amen to earth and sky
There's more to life than getting by

Just watch her run
She's a lover of the sun
Just watch her run
She's a lover of the sun...
