

Need You Tonight

The Jayhawks

First day the snow fall
Warm inside don't tell
Honey your secret is safe
in your eyes
Lost in the quiet
The stars come alive

Even the darkness can't hide
Love's imperfections, what can I do
Nobody's lying but nobody's telling the truth

Babe I don't wanna be right
It's making me lonely
Holding onto you tight
Need you to know me
Need you tonight

Next day the cold stain
Another bed unmade
Drinking the medicine down
Tossin' and turnin'
Heaven is burnin'
We've got to find our way out

Babe I don't wanna be right
It's making me lonely
Holding onto you tight
Need you to know me
Need you tonight

Not even time can erase
Love's indiscretions
All we've been through
Tore-up and twisted
Your call came, I missed it
I'm done resisting you

Babe I don't wanna be right
It's making me lonely
Holding onto you tight
Need you to know me
Need you tonight

Babe I don't wanna be right
Babe I don't wanna be right
Babe I don't wanna be right
It's making me lonely
Need you tonight
