

Nothing Left To Borrow

The Jayhawks

The ones you left behind are stuck in line
You've never been deprived of a smile or a time

Didn't you feel so wise for a while
Didn't you feel that your ship had arrived
There was nothing left to borrow
There was nothing left to borrow

Well you follow where you've led
Say you're using your head
Still making the rounds
With the fools and the clowns

But you're still young with your eyes open wide
Couldn't you stick around for the ride
But your mama always said
You gotta save your money

There was nothing left to borrow

But you're still young with your eyes open wide
Couldn't you stick around for the ride
Couldn't you stick around
Couldn't you stick around
