

# What World Are You Living In ?

The Jayhawks

You and I've been this road together  
And every now and then you've lost your way  
But I've been run before  
You opened up my door  
But you crawled back home again

What world are you living in ?  
Where have you gone ?  
And where have you been ?  
What made you think you will get  
My love and respect  
By walking back in ?

We can probably be playing this game forever  
The trouble is, you're tougher than you look  
And after all this time  
I know you're no friend of mine  
And there is no way I could win

What world are you living in ?  
Where have you gone ?  
And where have you been ?  
What made you think you will get  
My love and respect  
By walking back in ?

Well, I've been strong before  
Watched you walking out my door  
Now you're calling out my name

What world are you living in ?  
Where have you gone ?  
And where have you been ?  
What made you think you will get  
My love and respect  
By walking back in ?  
(2x)
