

# I Can't Get My Hands On You

The Jeff Healey Band

I've got two islands in the Bahamas  
Got some land in the south of France  
I am gonna get me a house out on Malibu beach  
Just as soon as I get the chance

Though I ain't got a driver's license  
I've got a Rolls and five limousines  
I've got every little thing that money can buy  
And I guess that I am a man of means

Well, I've got a lot of things, baby, in this world  
But I can't get my hands on you

Once I loaned out a whole lot of money  
To a man who I called my friend  
And he skipped town without paying me back  
Well, he'll never pull that trick again

And though it ain't always been this easy  
I worked hard to get to this spot  
And all that it took was determination  
To get all the things that I've got

You see, I've got a lot of things, baby, in this world  
But I can't get my hands on you

No, no, no  
Hey!

Well, I guess if I had to admit it  
In my life, I've done okay  
Whenever they told me that I couldn't get something  
I went out and found me a way

But with you, it's a different story, baby  
You just won't give me a break  
How am I gonna face all of my friends  
My whole reputation's at stake

You see, I've got a lot of things, baby, in this world  
But I can't get my hands on you

Oh, I can't do it, baby  
No, no, no  
Can't get a hand on you
