That's What They Say

The Jeff Healey Band

Well they say you're running all over town
Your Gonna put me down
Well I don't believe it
But that's what they say

They say you're playing me for a fool
The situation ain't cruel
And I should just leave it
But that's what they say

They say that we should be far apart
You're break my poor heart if I stay
And I keep trying hard to ignore
They tell me more everyday
And i don't believe them
But that's what they say
I don't believe them
But that's what they say

They say that you've been with other guys
You've just been telling me lies
Bout those people in places
That's what they say

They say that I should find me someone
Won't be tempted to run
To all those handsome faces
That's what they say

Those people talking they are my friends
Don't matter how it depends on you
But they keep trying to warn me each day
And tell me is what they saying true

So tonight I'm gonna follow you round
To all those places in town
See all the things you doin
And the games that you play
Cause I don't believe it
But that's what they say
No I don't believe them
But that's what they say

Yeah
Yeah
That's what they say

Yeah
Yeah
That's what they say

Trying to ignore it
Yeah
Yeah
That's what they say

Trying to ignore it

Yeah
Yeah
That's what they say

Yeah
Yeah
That's what they say
