

The Moon Is Full

The Jeff Healey Band

You know the moon is full
I think I feel my love comin' down
The moon is full
I believe I feel my love comin' down
You see, I just met this little girl
And I don't wanna have to leave this town

All my friends call me crazy
But they don't know how I feel inside
All my friends call me crazy
They don't know how I feel inside
You see, I love this little girl
She got the big beautiful brown eyes

Now if I don't catch that train in the mornin'
I know I'm gonna have to hitchhike
If I don't catch that train in the mornin', baby
I believe I'm gonna have to hitchhike
I got to let that little girl know
I may be gone overnight

You know the moon is full
I believe I feel my love comin' down
Yes, I said the moon is full
If I feel my love comin' down
See, I just met this little girl
And I sure don't wanna have to leave this town
