

Stay Together

The Jelly Jam

staring into nothingness everything outside my observation
it doesn't mean that I don't care
thoughts colliding aimlessly trying to make out a constellation
it doesn't mean that I'm not there and I don't care
is the show nearly over
can we leave
forget the weather
I think that we could stay together
stay together now
light as a feather
I think that we could stay together
stay together now
staring at the ocean line breathing deep and feeling fine toget
her
yeah, you know how much I care
a hundred million miles apart but you know that there is no mil
e between us
yeah, you know how much I care and I am there
is the day almost over
can we leave
forget the weather
I know that we can stay together
stay together now
light as a feather
I thin that we could stay together
stay together now
I know things ahead look so much better now
I see things ahead look so much better now
I feel things ahead look so much better now
