Monkey Trick

The Jesus Lizard

He's gone in her lips, a glow from her lip ignites the shapes s he sees, in the shade

Only a little is used to come to a close, only a little is used to come to a close

Tonight at the knife stick up place, I spoke as a child and cho ked on that line

(Then I saw them), then I saw them, (then I saw them), then I saw them $\$

What are they doing outside, what are they doing
What the hell are they doing outside, what are they doing
In so much brown and crap it's set in an odd light
This one it stops right here now, I think it's trouble you invite

In so much as they don't know what's right
This one it stops right here now, I think it's trouble that you invite

Tonight at the knife stick up place, I spoke as a child and cho ked on that line

Then I saw the, then I saw them, then I saw them, then I saw them

I know they have them down there, I've seen them down there Body parts all over thistown, what are they doing
