## The Jesus Lizard

Swinging little messy stinky girl Call me whatever you will I have a present for you... charity

Take off your shoes if you're going to dance on me But don't grind your pretty heels in my face I have a present for you

Drunker as I stayed

So I masturbated to your serenade

Couldn't see any face

Except for that girl I saw in that place

Her legs and her cheeks and her ass and her face

But I got mine

Close up... she kicked me in my face

Laugh at the noises my breaking bones make Cover me up with the milk that you spill I have a present for you... poverty
