

# I Stay Ready

The Jokerr

A lot of people ask me  
Why I did this  
Old school Eminem intro on this song  
(That doesn't even make chronological sense)  
I know

Now its a double edge sword when you messing with the wordsmith  
A dangerous game homie I just wouldn't encourage it  
I been known to murder shit  
Been known to drop a couple track on a whack rappers backs, snap vertebrates  
I suplex bitches on the mic and in real life  
I'm damaging shit, your clan[?] is like amateur night  
You average at best, I've never been even close to it  
I could be spitting in sign-language and still roasting shit  
I'm The Jokerr so the shit I do, niggas laugh at it  
I join the militant sector of black panthers chapter  
And get active with em'  
Show up at black lives matters with a gat  
And bust a cap in the ass of Colin Kaepernick  
Niggas flip out  
I'll just be like yo; I'm half black n shit  
Then they just be like: oh okay cool, it doesn't matter then  
Yo but now I'm jumping fences  
Cuz' I did the same shit with Ku Kux Klan to Trump at the Republican convention

I STAY READY  
You ca-You can catch me walking down the street bitch  
You-You can catch me flossing out my teeth bitch  
I STAY READY  
Whether I tryna relax at the beach  
Or practice my Chi  
Nigga it doesn't matter to me!  
I STAY READY  
Yea - Ready for war ready for blood  
I STAY READY  
Ready for dirt ready for mud  
I STAY READY  
Bitch you can aim shoot and empty the slug  
But you won't ever get the drop on me homie just because  
I STAY READY

You can't get the drop on The Jokerr I'm too swift  
I sleep with my eyes pried open with toothpicks  
I sleep standing up out standing out in the cold on my stoop grippin'  
A shottie big enough to blow a hole through a moose with  
I juke quick in-and-out the game as I chose  
One second I'm there the next I'm not  
I aim to confuse  
Every possible public version of my name is a ruse  
My available information is so hazy and skewed  
I got Niggas in the UK thinking I'm from the states  
Got niggas from up North thinking I'm from the A  
Got niggas on the West Coast thinking I'm from the East  
But I'll beat you with a atlas for thinking I'm not a beast!  
The way that I bless a track  
You think I'm the rhyming priest

Say grace and eat rappers at the holy rhyming feast  
I chop 'em in half with my giant teeth while I'm holding feet dangeling vertically - gulpin' em - I told you

I STAY READY

You ca-You can catch me walking down the street bitch  
You-You can me flossing out my teeth bitch

Or scratching my balls
