

Some Folks Like To Steal

The Kentucky Headhunters

You got three in the front seat
Should be you and your chick
Instead there's some cat claims he gets car sick

Keep both eyes open
One hand on the wheel
It may be hard to believe
But some folks like to steal

Now you got a woman
Lookin' good in the crowd
There's a love buzzard waitin' to swoop down and take her out

She calls you up
Puts off the date for the night
You go along with her
And say honey that's all right
You drive past her house
And see his car outside
Your best friend done taught
Your good woman to lie

Keep both eyes open
One hand on the wheel
It may be hard to believe
But some folks like to steal
