

## We Found Drugs

The Key of Awesome

Taking baths while fully clothed  
We look cute when we overdose  
A shopping cart is our vehicle  
We go to drugs, and we don't do school  
We don't understand why everyone's annoyed with us.  
I bet it's cus' they're all jealous  
We blow smoke in your mother's face  
We do meth but we're in great shape  
We don't know how to use ashtrays  
We make love in a homeless man's face  
I asked for change not a threesome  
Could be worse  
We push old people down the stairs  
And roll away in their wheelchairs  
Being gorgeous has its perks  
He forgot how drinking works  
And we can't have sex unless a crowd is watching us  
Here comes a double decker bus  
Our roommate is a talking bug  
What's up?  
Did we take too many drugs?  
Nah  
We wound up on doctor Phil  
Y'all need to stop screwin' on ferris wheels  
We found love is repetitive  
This is no place for a diva to live  
It's time to leave this gross pigsty  
Cus' I'm Rihanna and you're just some guy  
Bye bye
