

If I Had a Coin

The King Blues

If I had a coin to throw into the well
I'd wish I had three more.
If I had just three more wishes
I'd live three times or more.
If I saw a shooting star
I'd wish I saw three more.
If I had just three more wishes
I'd live three times or four.

You cannot belittle me
For I am the black cloud
That is perched over your head
Following you around.
