

Just Between You And Me

The Kinleys

I've got a feelin' deep inside
I've got a feelin' I can't hide...it's true
Just between me and you
It started in my heart nad hasn't stopped yet
And I don't know how big it's gonna get...
But it's true
It's just between me and you
Chorus
Just between us, I've seen us
Together in all my dreams
And when we touch, it's to much
It's electricity
Just between you and me
Just you and me and a night like this
You take my breath with one sweet kiss...maybe two
Just between me and you
You can call it magic, you can call it love
Call it forever, say you're thinkin' of it too
Just between me and you
Chours
This is more then one woman and man
This is greater then the sum of the two
I've got a feelin' deep inside
I've got a feelin' I can't hide...it's true
Just between me and you
Chorus
