

Drink As A Team

The Lacs

We like to drink as a team
We like to drink as a team
We like to drink as a team

Call the kinfolks up, get 'em all jacked up
Got my paycheck cashed and put some gas in my truck
The girls gettin' ready for some fun in the sun
My little two-piece, tanned-up ridin' shotgun
Man I'm ready for the party, ain't no worry tonight
I'm gonna chug 'em on down till I'm feelin' just right
When I'm finished for the day, drink straight into the dark
If you really think you hard, come and hit this mason jar
It's the people that I love, even though we gettin' loud
Hey I got it in my blood, guess I'm part of that crowd
Hey I'm buzzed out, drunk now, me and my friends
Come around the weekend, we gonna do it again

It's just a bunch of rednecks gettin' on down
Drinkin' anything gettin' passed around
There's ice cold beer everywhere that you go
That buzz gets better when the sun gets low
Girls gettin' wild, wanna dance all night
Boys get drunk, and pretty soon there's a fight
Everybody in the crowd is just like me
We like to drink as a team

I start this night off right, with a cold Bud Light
A couple more on the floor, now they ready to fight
If you come in too hot, man you just won't last

You'll have your head on the bar, while we raisin' our glass
So mister bartender keep our glasses all full
Jimmy Beam hit the scene, go get you a pull
Now this party don't stop till all of us gone
Get the salt and the lime 'cause I gotta Patron
Put your glasses in the air like y'all don't care
'Cause we're drinkin' over here, and they're drinkin' over there
I got no friends if you know what I mean
I call 'em drinkin' buddies, 'cause we drink as a team

It's just a bunch of rednecks gettin' on down
Drinkin' anything gettin' passed around
There's ice cold beer everywhere that you go
That buzz gets better when the sun gets low
Girls gettin' wild, wanna dance all night
Boys get drunk, and pretty soon there's a fight
Everybody in the crowd is just like me
We like to drink as a team

We like to drink
We like to drink as a team

It's just a bunch of rednecks gettin' on down
Drinkin' anything gettin' passed around
There's ice cold beer everywhere that you go
That buzz gets better when the sun gets low
Girls gettin' wild, wanna dance all night

Everybody in the crowd is just like me
