

Get Down

The Lacs

Cause I like to
Shotgun my first can of brew
I keep a lot of folks with me
Like to act a fool
And then I, came walking that country mile
We call it, "Down South,"
Where they get down, get down

Down South
Where they get down, get down
Down South
Where they get down, get down
Down South
Where they get down, get down
Down South
Where they get, get down

Makin' my way back deep in the woods
And the pine never smelt so good
Maybe if I was sober I would do like I should
But I can't 'cause I never could
Came a long way made a lot of noise
So whatcha gonna tell us ol' southern boys?
And if ya get down like me
Have a round on me
And get drunk

Cause I like to
Shotgun my first can of brew
I keep a lot of folks with me
Like to act a fool
And then I, came walking that country mile
We call it, "Down South,"
Where they get down, get down

Down South
Where they get down, get down
Down South
Where they get down, get down
Down South
Where they get down, get down
Down South
Where they get, get down

Now I've done been around and seen some things
I hit the towns, I played the games
Did shows from coast to coast
Backwoods along the road
The four-wheel drive's sittin' high
The fields live on Friday night
The bonfire lights the sky
Pickin' 'till the mornin' light
I've been all the way from California to bank (yeah that's right)
And I'mma tell ya 'bout somethin' they ain't got
I love it down south where they
Get loud, get loud
Smokin' and fightin' and drinkin' and chillin' and boy that's how we get dow

I-I-I've got that down south up in my blood
Get on down and show some love
How'm I, how'm I cut a [?]
Two step, y'all know what's up
Shake it little lady up in the bar
Let's live it up like some old rockstar
We showin' up, we jumpin' round
We show 'em how to get down

Get 'em down
(We show 'em how to get down)
(Get down)
Get 'em down
(Get down)
Get 'em down
Get 'em down
(We show 'em how to get down)
(Get down)
Get 'em down
(Get down)
Get 'em down
