One More

The Lacs

One more, one more
Feeling so good that I got to have got to have
One more, one more
It's the best time that I ever had, ever had
Ain't nothing better on a night like this
All I keep thinking about, thinking 'bout is
One more, one more
I got to have

Kick back sippin' on a cold one
Flip that radio to a old one
I don't wanna hear no new school nothin'
Play me some country and it better be bumpin'
With the fiddle in the middle, two step at the end
It's been a rough week an I'm just tryna get in
To this pretty little thing that caught my eye
I ask her to dance and she said alright
It was pure magic, I knew I had to have it
When her lips meet mine, it was automatic
Then the music stopped and we started to sway
So I asked the band to play

One more, one more
Feeling so good that I got to have got to have
One more, one more
It's the best time that I ever had, ever had
Ain't nothing better on a night like this
All I keep thinking about, thinking 'bout is
One more, one more
I got to have

I guessin' me and Mr. Jim is gonna work it out
And when I'm numb, ain't no way she can hurt me now
I took a loss and I moved on to a cold drink
These day's all I listen to is slow Hank
Late ridin' tryna calm my nerves
Got to get up in the mornin', go with mama to church
A little heaven couldn't hurt when you're goin' through Hell
Then it's back up at the bar, sorry mama, gotta bail
I'm an old time loner in a ghost town
Good times sure rollin' in slow now
I'm lost out in the middle of a love war
So I filled up the shot and drank one more

One more, one more
Feeling so good that I got to have got to have
One more, one more
It's the best time that I ever had, ever had
Ain't nothing better on a night like this
All I keep thinking about, thinking 'bout is
One more, one more
I got to have
One more, one more
Feeling so good that I got to have got to have
One more, one more
It's the best time that I ever had, ever had
Ain't nothing better on a night like this

All I keep thinking about, thinking 'bout is
One more, one more
I got to have

All I keep thinking about, thinking 'bout is
One more, one more
I got to have
