

Red Eyes

The Lacs

And I see red eyes behind the headlights again
[?] no matter how high he gets
And two more one night stands in the dark
He's [?] her heart and just follow the part
Drinking alone in the sun just one more time
Ah, and I see red eyes behind the lights
And I see red eyes behind the lights

She been sober a year and a half
And all the things she tried to leave in the past
Was here, living in this small town
And all her family tried to keep her away from him
'Cause judging by the alcohol on his breath
He's up to no good again

And she gets so lonely
Until the tear drops turn into wine

And I see red eyes behind the headlights again
[?] no matter how high he gets
And two more one night stands in the dark
He's [?] her heart and just follow the part
Drinking alone in the sun just one more time
Ah, and I see red eyes behind the lights
And I see red eyes behind the lights

Yeah, he had that fire burning
That feeling inside her
He knew what drives her [?] despite her
Voted cutest couple by the [?] while in high school
But a different tone, while at home
Creeping, breaking all the rules
Her side of the family was the church crowd class act
For his it was the rough necks, wrong side of the tracks
And her mama said baby don't throw your life away
And she said I love him mama, everything is gonna be okay
Your mother's so upset, crying took her, car, phone
And her daughter said you better love or mama I'll be gone
Then that car rode in the [?] she kissed her folks goodbye
And she said you got to realize
There's more to him than red eyes

And I see red eyes behind the headlights again
[?] no matter how high he gets
And two more one night stands in the dark
He's [?] her heart and just follow the part
Drinking alone in the sun just one more time
Ah, and I see red eyes behind the lights
And I see red eyes behind the lights
