Big black cloud comin' from the smoke stack
Bi-bi-big black cloud comin' from the smoke stack (smoke stack)

Smoke stack comin' up out the back
The windows down tryin' to blow the gas
Subs cranked up hit the pedal smash
Doin' 99 south on the overpass
Back to the woods moonshine in the Mason
Truck full of good so you know that we blazin'
Commons in the hood think it's time for some racin'
Got a hot head but I am not cajun
Dazed up but I ain't confused
Women all boozed so I hit the juice
That's a 100 proof doin' 90 more
Now I'm pretty sure I'm in Timbuktu
My name is Cap I'll be in the back
With a flask and a girl on my neck, attached
Endorsement deals I got bucks to kill
Real bucks to kill and that's that
