

Never Know

The Lemon Twigs

Shane, time to learn about the bees and flies
That swarm around your eyes
Tame life has trapped you 'cross his bended knee
Where you're not meant to be

I am what I am
Just a broken man

Tell me, Daisy, how can I get through?

He'll never know

He'll never, never, never, never, ever know
He'll never, never, never, ever know

Never know
Never know
Never know

Shane, I've been meaning to unpack these lies
Time, time, time after time
I always treated you just like a son
Though you were never one

Dad patrolled the trees
On his hands and knees

Tell me, Daisy, how can this be true?

I've always known

He'll never, never, never, ever go
He'll never, never, never, ever go

Never know
Never know
Never know
