

Only a Fool

The Lemon Twigs

After all
I can't recall
Any time
You felt like mine

Love is pain that only a fool would wanna know
Somebody sent me flowers only hours ago
I don't wanna know

Everyone starts with 'Yes'
And winds up saying 'No'
And then they go and you're alone

You were divine
God's best design
I didn't mind
I was next in line

Love is pain that only a fool would wanna know
Somebody sent me flowers only hours ago
I don't wanna know

Everyone starts with 'Yes'
And winds up saying 'No'
And then they go and you're alone

I'm all by myself
And there's no one to see me cry
So away from it all
And I sometimes wonder why
I don't try
I might die from the fall

Love is pain that only a fool would wanna know
Somebody sent me flowers only hours ago
I don't wanna know

Everyone starts with 'Yes'
And winds up saying 'No'
And then they go and you're alone

Oh, I'm all by myself
And there's no one to see me cry
So away from it all
And I sometimes wonder why
I don't try
I might die from the fall
So away from it all

I couldn't fit
Wasn't up for it
You didn't mind
You left me far behind

Love is pain that only a fool would wanna know
Somebody sent me flowers only hours ago
I don't wanna know

Everyone starts with 'Yes'
And winds up saying 'No'
And then they go and you're alone
