

Why Didn't You Say That?

The Lemon Twigs

I never thought she'd doubt me when I said I loved her still
I wanted to say how I felt that day
I said "I always will"
And I want to say I miss you
And I wish that I was with you
But I hadn't, I hadn't, I wonder why

She couldn't stand to see me walking with my own two legs
I needed her then more than I'd ever again
Fell on my knees and begged
Said I'm sorry that I waste you
A girl like you was made to be had and I, had and I wonder why

And I won't say you're pretty
If you think you're too busy
To put your hand in mine
It happens all the time
I wanna be with you
If love is what you knew
Then why didn't you say that?

Ooh shalala
Ooh shalala
Ooh shalala
Ooh shalala
Ooh shalala
Ooh shalala
Ooh shalala

And I won't say you're pretty
If you think you're too busy
To put your hand in mine
It happens all the time
I wanna be with you
If love is what you knew
Then why didn't you say that?
Why didn't you say that?
Say that
