

# While You're Away

The Letter Black

Why is this happening to me  
And no one can comfort me  
Or try to understand  
I keep talking to myself  
Telling them stories about us  
So I can remember all the times we had

You're the song on the radio  
I see us dancing so slow  
I miss you more and more each day  
I don't wanna say goodbye  
Just wanna hold you tonight  
And I'm proud to wear your name  
While you're away

Is there more I could've done  
Begged for forgiveness  
Or prayed one more time  
Would it bring you here beside me  
Would it stop these tears from falling down  
Into this empty room

You're the song on the radio  
I see us dancing so slow  
I miss you more and more each day  
I don't wanna say goodbye  
Just wanna hold you tonight  
And I'm proud to wear your name  
You make me proud to wear your name

Whoa  
You're the song on the radio  
I see us dancing so slow  
I miss you more and more each day  
Don't wanna say goodbye  
Just wanna hold you tonight  
And I'm proud to wear your name

You're the ribbon on the door  
Husband and father of four  
I love you more and more each day  
Don't wanna say goodbye  
Just wanna hold you tonight  
And I'm proud to wear your name  
You make me proud to wear your name  
And I pray God will keep you safe  
While you're away

Uh-huh  
You're away, oh
