

I Can Feel You Dancing

The Lone Bellow

Happy birthday babe
I wanna feel the danger
Cigarette smoke and perfume
Fire fightin' the wind
I want the touch of a stranger
Make my way across the room
Neon lights are drawing me
To the night
To the night

Heat in my bones
Beat on the drum
All my money on a feeling
A face in the crowd
Feet off the ground
Two steppin' on the ceiling
I can feel you dancing

I Want the wheels to fall off
Stray cat down the alley
Street light shining on your shadow
Glory hanging from the heavens
Oh it's crashing
Weightless on your shoulder

Heat in my bones
Beat on the drum
All my money on a feeling
Just a face in the crowd
Feet off the ground
Two steppin' on the ceiling
I can feel you dancing

Neon lights are drawing me
To the night
To the night
Keep on while the city sleeps
Here and now
Crack a smile

Heat in my bones
Beat on the drum
All my money on a feeling
Just a face in the crowd
Feet off the ground
Two steppin' on the ceiling
I can feel you dancing
