

Do To Me

The Lox

I blow a 100 on, that what you do to me
It make my baby mama lurk, that what you do to me
Let me take off of work, that what you do to me
Let me take off my shirt, that what you do to me
Tell my niggas mind their business, that what you do to me
First to class to the Bahamas, that what you do to me
Take my mind off them bitches, that what you do to me
Louboutins and hilyard, that what you do to me

Like what you do to me
Like who we you used to be
Back then before the cars, before the jewelry
You said them niggas phony, I told you thanks for that
We get high, her fat ass, my baby got my back
My momma don't like her, I said she cool with me
We be killin' 'em, somebody read the eulogy
Like what you do to me, this liquor duty free
Black man gettin' this money, no coonery
I wanted unity in my community
All these shells on the floor, I counted 33
New York like Derek Jete
Hip Hop like Eric B
Rakim, LOX, check out my melody

I blow a 100 on, that what you do to me
It make my baby mama lurk, that what you do to me
Let me take off of work, that what you do to me
Let me take off my shirt, that what you do to me
Tell my niggas mind their business, that what you do to me
First to class to the Bahamas, that what you do to me
Take my mind off them bitches, that what you do to me
Louboutins and hilyard, that what you do to me

You got me all in my bag, that's what you do to me
Spanish her second language, she speak it fluently
AP's, bust down Patek, she got like two or three
Fuck the world, baby girl, 'cause it's just you and me
Long as you want me to win, that's what you do to me
Bitches hatin' again, ain't nothin' new to me
If the cars came with miles, then it ain't new to me
Us vs them forever, no matter who it be
See me go the extra mile, that's what you do to me
Everytime you see me smile, that's what you do to me
You just playin' you part, you do it beautifully
I'm just speakin' from the heart, I'm speakin' truthfully

I blow a 100 on, that what you do to me
It make my baby mama lurk, that what you do to me
Let me take off of work, that what you do to me
Let me take off my shirt, that what you do to me
Tell my niggas mind their business, that what you do to me
First to class to the Bahamas, that what you do to me
Take my mind off them bitches, that what you do to me
Louboutins and hilyard, that what you do to me

That's what you do to me, light up to glue with me
Left the 9 home, and she brought the 22 to me

She be stuntin' hard, like Rick the Ruler with the jewelry
Half a brick of yag, and the broad where the hooters be
From the Biggie day, I will pull up where the shooters be
You on my computer love, face on my computer screen
We could blow a 100, baby, that's nothin' new to me
Gotta hit Chanel for you, gotta hit Louie for me
Rilan got a billion out the window, they pursuin' me
We could get the bags and checks, speak annuities, fluently
And when I'm doin' you, I be doin' me
Told my niggas mind they business, I'm just doing P

I blow a 100 on, that what you do to me
It make my baby mama lurk, that what you do to me
Let me take off of work, that what you do to me
Let me take off my shirt, that what you do to me
Tell my niggas mind their business, that what you do to me
First to class to the Bahamas, that what you do to me
Take my mind off them bitches, that what you do to me
Louboutins and hilyard, that what you do to me
