

Dancing in Your Eyes

The Magnetic Fields

The summer came and passed us by
We didn't care, we just let it die
But when we dance, just you and I
When we walk hand in hand in the rain

When we're young and in love once again
We will dance in the autumn with the leaves in our hair
When I look, I'll be dancing in your eyes

You've gone away over the sea
You will return, it's meant to be
Never regret your time with me
