

## In My Car

### The Magnetic Fields

You were mean to me and broke my heart  
now you've gone away but we're apart  
but I've got a special machine to take me where  
things turned out differently and you still care

I'm in my car I'm in my car I'm taking a ride to somewhere inside  
where you never left and I never cried at the speed of light in  
my car.

Never comin' back to the world  
I know where I belong where I'm your girl  
so I've got fuzzy dice to bring me luck  
roll me to a better place where we can rock
