

My Only Friend

The Magnetic Fields

Billie you're a miracle and God knows I need one
Sing me something terrible
that even dawn may come You and me, we don't believe in happy endings
Hey,
Lady Day, can you save my life this time Can you cry so beautifully
you
make my troubles rhyme Hey, Lady Day, can you save my life again
My only
love has gone away Will you be my only friend Billie you're a genius
enough to be a fool a fool to gamble everything and never know the rules
Some of us can only live in songs of love and trouble Some of us can only
live in bubbles...
