

Sugar World

The Magnetic Fields

Please forgive me for all the things I've done.
Sugar give me the love I need to carry on living.
Living without you I'd just die

With you, with you I can hold my head up high
And tell the crowd that I'm so proud
It makes me want to cry

Sugar World of you
Sugar World what can I do
Sugar World you're so Sweet
You're a Sugar World
To me you're champagne or ruhr wine
Will you make up your mind
You're lemon or you're lime
You're pecan or praline
You're sky bar or cloud nine

Sugar save me, come on save me from myself.
Enslave me, I never wanted anything else.
Looking, looking into your candy eyes.
Talking, talking about the day when I can
Make a vow, but that's not now.
It makes me want to cry.

Sugar World of you
Sugar World what can I do
Sugar World you're so Sweet
You're a Sugar World
To me you're champagne or ruhr wine
Will you make up your mind
You're lemon or you're lime
You're pecan or praline
You're sky bar or cloud nine
