The One You Really Love

The Magnetic Fields

I do believe our love's in danger I might as well be loving air You look at me like I'm a stranger You look at me like I'm not there

I gaze into your eyes of blue But their beauty is not for me You're thinking on someone who's gone You're dreaming of the one you really love

I made you mine, or so it seemed Though he is dead he haunts your dreams I might as well be two foot tall You never will love me at all...

I gaze into your eyes of blue but their beauty is not for me You're thinking on someone who's gone You're dreaming of the one you really love You're dreaming of the corpse you really love
