

# Love Me or Leave Me

## The Material

When you first smiled I would do anything to be with you  
I lost myself, I'm not the same  
I've changed the things you asked me too  
Became somebody else for you,  
So love me now or leave me this way  
Leave me this way.

The seasons came and then again  
And every day I played pretend  
I thought that we, would be okay  
That February brought the way  
And washed the lies I'll have my face,  
So love me now or leave me this way.

'Cause I can't be only you right now  
I can't be all that you need  
I won't go on playing alone  
Once you set me free  
Well love me for me!  
That you love me for me.

So why do we fall apart and hide the pieces in the dark  
I finally learned from my mistakes  
I share the mess that I was seen  
This is we in my own skin  
So love me now or leave this way.

'Cause I can't be only you right now  
I can't be all that you need  
I won't go on playing alone  
Once you set me free

I wanted to believe in us  
But I can't never be enough  
To leave it to the girl of your dreams  
I finally woke up today  
Realize that I'm okay for who I am so love me for me!  
Could you love me for me?

Love me or leave me this way  
Leave me this way, leave me this way

'Cause you can't be all that I want  
No, you can't be all that I need  
I won't go on playing alone  
Once you set me free  
So I can't be me, yeah!  
I won't go on playing alone  
Once you set me free.
