

## What happens next

### The Material

This is our time now, take a look around  
Everything is about the change

We've said our goodbyes  
It's time to realize that  
Nothing gold ever stays

We've set our sails for so much more  
Won't let our dreams get washed ashore  
This is what we've waited for

So tell me what happens next  
I've been dying to see  
Will we finally move on  
Oh it's so bittersweet

And all the days that we've shared  
I will never forget  
But it's time to find out now  
What happens next

Waves of memories crashing at my feet  
I wouldn't trade them for anything  
But the road ahead is a page unread  
And there's no place I'd rather be

So tell me what happens next  
I've been dying to see  
Will we finally move on  
Oh it's so bittersweet

And all the days that we've shared  
I will never forget  
But it's time to find out now  
What happens next

Yeah

This is our time now, take a look around  
Everything is about the change

We've said our goodbyes  
It's time to realize  
Things will never be the same

So tell me what happens next  
I've been dying to see  
Will we finally move on  
Oh it's so bittersweet

And all the days that we've shared  
I will never forget  
But it's time to find out now  
What happens next

We've set our sails for so much more  
Won't let our dreams get washed ashore

This is what we've waited for  
What we've waited for

We've set our sails for so much more  
Won't let our dreams get washed ashore  
This is what we've waited for  
What we've waited for
