

Where Were You

The Mekons

When I was waiting in a bar, where were you?
When I was buying you a drink, where were you?
When I was crying at home in bed, where were you?
When I watched you from a distance did you see me?
You were standing in a queue did you see me?
You had yellow hair, did you see me?
I want to talk to you all night, do you like me?
I want to find out about your life, do you like me?
Could you ever be my wife, do you love me?
