

The Room

The Meteors

My baby says she's mine all mine but I know that she's
just Lupine
Well, what can I do
She locks me in the little room so she can howl beneath
the moon
Without fear of hurting me

Well won't somebody help me please help me in this misery
Won't somebody break this spell
And send my baby down to hell
My baby says she's mine all mine but I know that she's
just Lupine
Well, what can I do?

I woke up this morning and what did I see ?
I was covered in blood my baby's lying next to me
Her throat had been ripped out
I suppose it must be true
The werewolf must be me and not you

My baby says she's mine all mine but now I know that I'm
Lupine
Well what can I do?

Yeah, now I know that I'm Lupine i have myself a real
good time
Well, what would you do?
