

Stop

The Moody Blues

So you talked to my girl
When I don't want you to
Want you to
Just the thought of you holding her
When I don't want you to
Want you to
Won't do
No, no, no
It won't do, no

Stop! Stop!
You're trying to break it up between us
Stop! Stop!
Don't want a broken heart between us

Oh please forget about it
Make your mind up
What you're going to do about us

So you talk better than me
And you know, you know it
Know you know it
And if you want to get her from me
And you know, you know it
Know you know it
Won't do, no
I'm telling you it won't do, no

Stop! Stop!
You're trying to break it up between us
Stop! Stop!
Don't want a broken heart between us

Oh please forget about it
Make your mind up
What you're going to do about us

Stop! Stop!
You're trying to break it up between us
Stop! Stop!
Don't want a broken heart between us

Oh please forget about it
Make your mind up
What you're going to do about us

Stop! Stop!
You're trying to break it up between us
Stop! Stop!
Don't want a broken heart between us
