

Careful

The Motels

I need
You need
Listen
I understand that

Making up for extra time
Trying not to lose all that I thought was mine
Spell it to you black and white
You think you're the kind of trouble
That is worth a lot
Can't you see you're very not?
But just don't leave me
But just don't leave me
But please don't leave me

Your way
Careful
I'm indicating
My way

But just don't leave me
But just don't leave me

I need
You need
Listen
I understand that

Making up for extra time
Trying not to lose all that I thought was mine
I spell it to you black and white
You think you're the kind of trouble
That is worth a lot
Can't you see you're very not?

But just don't leave me
But just don't leave me
But please don't leave me

Your way
Careful
I'm indicating
My way
