

# Change My Mind

The Motels

I bet you guessed where I was some time ago  
And I bet that you really didn't know  
I don't need you  
I don't want you  
But I might change my mind

We could take off for Paris on a cruise  
You and me could make front page news  
But it don't mean nothing  
Don't mean a thing  
Cause I might change my mind

There was a time when it was good  
We laughed and danced all over the neighborhood  
You'd take my hand  
I apologize  
But I just might change my mind

I got to know if I've been or gone  
Need to know if it's worth hangin' on  
Time is mine  
What's mine is yours  
And I just might change my mind  
I just might change my mind  
I just might change my mind
