

Starlight vivid as madness
Dreams wake inside my head
It's as though I'm hearing words no one said
I'll ignore communication
Hone in on the devise
Live forever once but never twice

Counting stars, lucky stars
One by one they lead me here
One by one they disappear
Counting stars, lucky stars
One by one they led me on
One by one and then they're gone

Moonlight cradles my intentions
Leaves a glow for all to see
If you don't want any answers, why ask me?
I got riddles in my veins
And a hunger in my touch
And what I crave I crave a bit too much

Counting stars, lucky stars
One by one they lead me here
One by one they disappear
Counting stars, lucky stars
One by one they led me on
One by one and then they're gone

My eyes are full of visions
Thoughts scream, I've no control
And with the night I fall broken and cold
Can't ignore my beating heart
Or still it's savage tone
Any memories left have left me here alone

Counting stars, lucky stars
One by one they lead me here
One by one they disappear
Counting stars, lucky stars
One by one they led me on
One by one and then they're gone
