

Tables Turned

The Motels

Broken by the empty evening
Wondering when it will be all right again
Waiting patiently
For the tables to turn

Watching you go through your moves
My hand is out you leave me standing there
Helplessly
Until the tables turn

You ask for me
You call for me
I know how it feels
Don't you think I know
You can stand alone
Just like I did
Until the tables turned
Until the tables turned

The street is dark
But it's my best friend
Wait for the chance to see you again
I'm waiting patiently for the tables to turn
I could be wrong
But it might be right
I couldn't stand another night
Just waiting endlessly
For the tables too turn

You ask for me
You call for me
I know how it feels
Don't you think I know
You can stand alone
Just like I did
Until the tables turned
Until the tables turned

Turn pages in a book
Turn faces with a look
Turn moments back in time
To when you were mine

You ask for me
You call for me
I know how it feels
Don't you think I know
You can stand alone
Just like I did
Until the tables turned
Until the tables turned
Until the tables turned
