

# Cold Love

The Motors

Living in a dream  
Lost inside the danger zone  
City traffic screams  
Drowning out my telephone

Cold love is burning brightly  
Cold love is here to stay  
Cold love has really made my day today  
Everything we got it takes away

Sirens in the dark  
Rumors in the reche cafe  
Stabbings in the park  
Someone just got in the way

Cold love is burning brightly  
Cold love is here to stay  
Cold love has really made my day today  
Everything we got it takes away

City life is burning  
It's got it's knife in me  
But still the fools are mourning for the day  
Cold love has gone away  
Cold love is here to stay

Sirens in the dark  
Rumors in the reche cafe  
Stabbings in the park  
Someone just got in the way

Cold love is burning brightly  
Cold love is here to stay  
Cold love has really made my day today  
Everything we got it takes away

Cold love  
Cold love  
Cold love  
Cold love
