

## Coco-Yam Song

### The Mountain Goats

A neighboring clan went on the attack  
And stole all the giant coco-yams from the barn out back  
I will make them pay for taking my yams away

I carved out little figurines of thieves  
Burned a palmful of red dust from the medicine bag  
Broke a kola nut in half, i hate half of it myself  
Sat back and watched the evening drag  
I will make them regret that they haven't brought my yams  
back yet
