

# Carry Your Will

The Mowgli's

Hmm

Cherish this cause when it doesn 't last  
you'll wish you had  
I will cherish this  
I will be humble again

What will it take to get me to get where I'm going?  
Do you know the way?  
Do you know when the tunnel ends  
Lord, have mercy on me

Hmm

I see a house of lies  
built upon a foundation of sand  
That was our house  
That was our life, but we fell in

Then it was dark  
and we could see no more  
But some how we found each other  
Some how we found hope

If you carry your will, I will carry my will  
If you carry your will, I will carry my will  
If you carry your will, I will carry my will  
If you carry your will, I will carry my will

Let your faith guide your faith [20x]

If you carry your will, I will carry my will  
If you carry your will, I will carry my will  
If you carry your will, I will carry my will  
If you carry your will, I will carry my will

Let your faith guide your fate [3x]

Hmm

Cherish this cause when it doesn't last, you'll wish you had
