

# Monster

## The Mowgli's

He keeps on waking up  
Same old party still hungover  
Too high to find real love  
Says he'll get better when he's older

He asks me how I've been  
But he ain't even listening  
He's underneath my skin  
And I am getting scared of him

And I know when I look at you  
Those are someone else's eyes  
And I know you can see me too  
Only if you try

Sometimes I sit around and wonder  
What made me turn into a monster  
He's underneath my skin  
I realize I'm just like him

And I know when I look at you  
Those are someone else's eyes  
And I know you can see me too  
Only if you try

And I know when I look at you  
Those are someone else's eyes  
And I know you can see me too  
Only if you try

Try to read between the lines  
Can't get down if you're up every night

And I know when I look at you  
Those are someone else's eyes  
And I know you can see me too  
Only if you try

And I know when I look at you  
Those are someone else's eyes  
And I know you can see me too  
Only if you try

And I know when I look at you  
Those are someone else's eyes  
And I know you can see me too  
Only if you try  
Only if you try  
Only if you try
