

Hold on to your heart  
No one's taking away a thing  
Only adding to the skies  
Lay down next to me  
I feel you in my fingertips  
Open energy

This big red light's gonna catch us soon  
And this static tune might get to you  
We've got nothing to lose  
Ah oh  
We've got nothing to lose

Roll out flesh and bone  
I'll intertwine my lines  
With your simple tone  
And as our eyes close  
I'll crawl into you  
It's everything we know  
It's everything we do

This big red light's gonna catch us soon  
This static tune might get to you  
We've got nothing to lose  
Ah oh  
We've got nothing to lose  
Ah oh  
We've got nothing to lose  
Ah oh  
We've got nothing to lose

Hold on to your heart
