

## See I'm Alive

The Mowgli's

We're not alone  
We're not alone

She's got the rays of the sun now  
Flowing through her hair as she turns around  
And the waves of the sea rising up underneath

We've got the way to a lovin' age  
Pourin' out my skin like a lover's face  
To the ground, let it seep into the clouds oh

Don't try and fly, no we need a ladder  
Up to the sky, where we're climbing higher up  
And let the love on my hand take your side, yeah yeah yeah  
If you look into my eyes you will see I'm alive

We've got the way to a lovin' age again  
We've got the way to a lovin' age again  
(We're not alone)  
(We're not alone)

If you hold back you won't know that thrill  
If you come back you'll see me, I'm living my life again oh

Don't try and fly, no we need a ladder  
Up to the sky, where we're climbing higher up  
You let the love on my hand take your side, it's alright yeah  
If you look into my eyes you will see I'm alive  
If you look into my eyes you will see I'm alive

If you hold back you won't know that thrill  
If you come back you'll see me, I'm living my life again oh

If you look into my eyes you will see I'm alive yeah  
If you look into my eyes you will see I'm alive yeah  
If you look into my eyes you will see I'm alive yeah  
If you look into my eyes you will see I'm alive yeah
