

# Fire

## The Music

Yeah, I'm sensible, I want peace  
And I believe it's still inside of me  
Far from here they speak a thousand tales  
Of what we lost into an open fire

I think it's time for you to look around  
And see your past is like broken glass  
Where are the feelings?  
Where are the feelings?

A false empire of burning fire  
A burning fire is what you are  
A burning fire gonna leave a scar  
A burning fire is what you are  
A burning fire gonna leave a scar

I've had enough, I'm gonna hide no more  
Now I've spoken, gonna speak some more  
Politics are getting in the way  
People telling me what I should say

I think it's time for you to meet the boys  
We'll cut through you like silence cuts through noise  
Where are the leaders?  
Where are the leaders?

A false empire of burning fire  
A burning fire is what you are  
A burning fire gonna leave a scar  
A burning fire is what you are  
A burning fire gonna leave a scar

Yeah, I'm not inspired

I've had enough, I'm gonna hide no more  
Now I've spoken, gonna speak some more  
Politics are getting in the way  
People telling me what I should say, woah

I think it's time for you to meet the boys  
We'll cut through you like silence cuts through noise  
Where are the leaders?  
Where are the leaders?

A false empire of burning fire  
A burning fire is what you are  
A burning fire gonna leave a scar  
A burning fire is what you are  
A burning fire gonna leave a scar

Yeah, I'm not inspired  
Outside
